INSTALLATION DETAIL

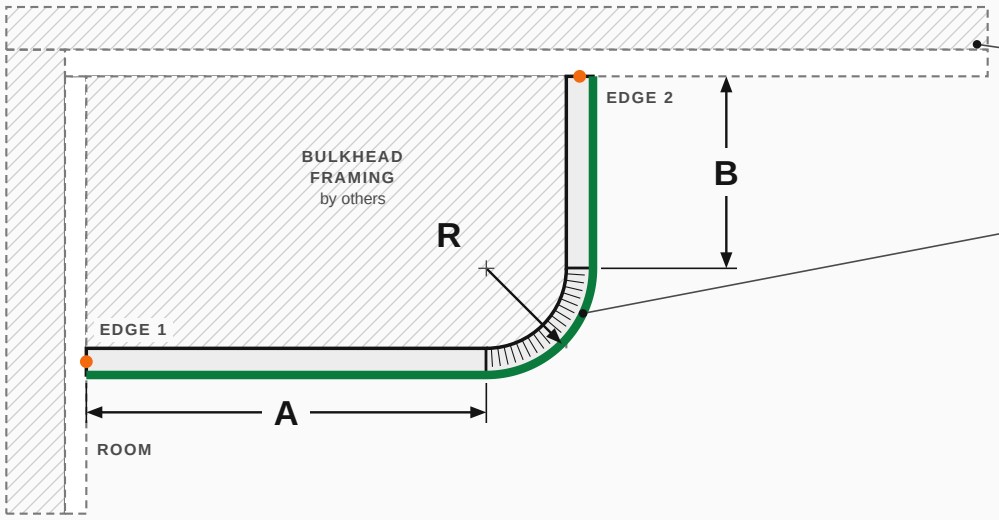

ROUND BULKHEAD

Groove Manufacturing Group Inc.

1 OUTSIDE RADIUS - BULKHEAD CORNER

ROUNDED BULKHEAD EDGE

SECTION VIEW

CEILING & WALL
framing and drywall by others

ROUND BULKHEAD PROFILE
outside radius, smooth face to room

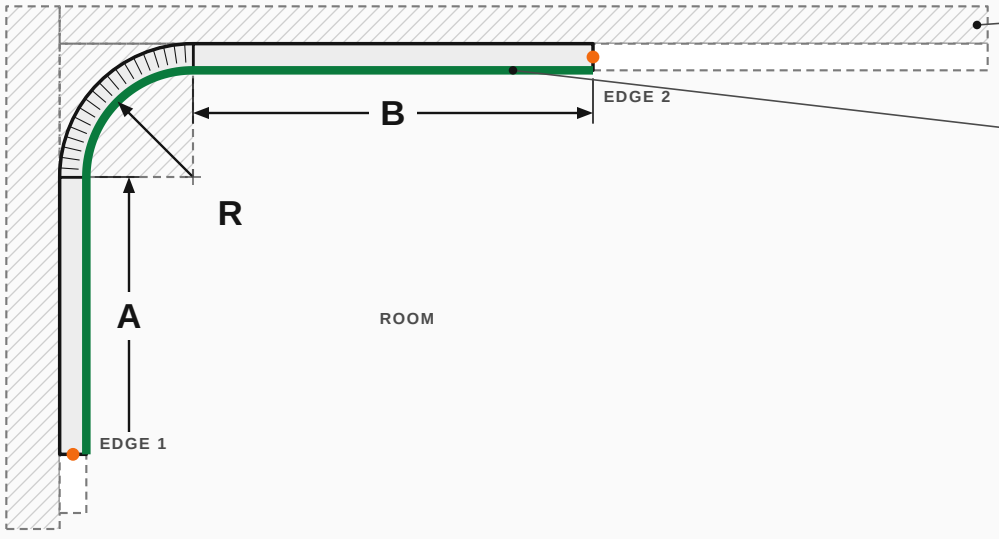

EDGES 1 & 2
inside corners - tape & finish

A = underside (wall to curve)
B = face (curve to ceiling)
R = radius to the finished face

2 INSIDE RADIUS - COVE AT WALL & CEILING

COVE CORNER

SECTION VIEW

WALL & CEILING FRAMING
and flat drywall by others

ROUND BULKHEAD PROFILE
inside radius, smooth face to room

EDGES 1 & 2
flat joints - tape & finish

A = wall leg (edge to curve)
B = ceiling leg (curve to edge)
R = radius to the finished face

3 NOTES

- Profiles arrive pre-formed. Fasten the flat legs to framing with the smooth (green) face to the room.
- Edges meet flat drywall or an inside corner - tape and finish as standard drywall.
- Provide solid framing or backing behind the curve. Measure A and B to the start of the curve, R to the finished face.
- Orange dot = joint to flat drywall. Green = finished face. Dashed / hatched = by others.
